## Extreme Certified Associate in Extreme Switching

Issued by [Extreme Networks](#)

This course takes a deeper dive into our Extreme Switching products. Earners of this badge learn about Extreme Switching, EXOS/Switch Engine, security concepts and where you can find support for any technical questions you may have. You'll also learn about the management of switches, including tools like ExtremeCloud IQ and ExtremeCloud IQ-Site Engine. We look at licensing models, introduce you to technical terms and what networkers and engineers would do on a regular basis.
